DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 1-6, filed January 11, 2010, with respect to claims 9 and 16 have been fully considered and are persuasive. The rejection of October 9, 2009 has been withdrawn.

Allowable Subject Matter

2. Claims 9-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art neither discloses nor renders obvious the combination of limitations found in independent claims 9 and 16, particularly introducing an expansion tool into the pipe end and concurrently creating an upsetting force on the axial edge or end of the pipe that avoids reduction of the wall thickness in the enlarged section of the pipe. The outer diameter of the pipe is both defined and limited by the expansion mandrel. Takeuchi discloses reducing an inner pipe diameter with an accurately-shaped tapered section, which weakens the end section. Drillon discloses forming a pipe via rolling mill that partially reduces the pipe instead of expanding it. Roper discloses a method for expanding a pipe that is bent outward to form a flange with no upsetting force disclosed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
